

K-LOVE serves me as a resident of my community by providing good Christian music to listen to at work and as I travel to and from in my car. It gives my kids clean music to listen to while they're in my car. If K-LOVE were to be replaced by another station, I would be devastated. I count on their music daily to carry me through my workday. Before I discovered K-LOVE online, I had no music to listen to, and am so uplifted daily by their music as I work. I believe K-LOVE is an essential for the children and youth of today as well as adults, because in a world of filth and disgusting billboards, TV shows, and radio music, K-LOVE is uplifting and can set an example and lead the ways for tomorrow's leaders. Without K-LOVE, our world would be a sadder, less spiritual place. K-LOVE is an alternative to the filth of our society.
